

Daniel and Andrea Ryder
CRU | Buenos Aires, Argentina

My wife Andrea and I, along with our children David, Nicole, and Camila serve God with Cru; and after 35 years in several ministry roles such as campus evangelists, missionary trainers, and ministry directors both in the U. S. and in Argentina, we currently hold leadership positions with Cru: Argentina. What might we be doing in ministry with Cru in Argentina? Everything! My passions lie along helping pastors and denominational leaders plant churches (both by training, and hands-on modeling alongside them); and helping young national leaders with development and strategies ideally suited for them. Andrea enjoys women's ministries, and has been effective as a national leader with Cru's High School Ministry.

James and Mary Kamau
ICM | Dar es Salaam, Tanzania

International Christian Ministries (ICM) exists to serve the church by equipping and discipling its leaders. We help run a seminary (Tanzania ICM Seminary Tanzania) located in Dar es Salaam, the capital city. This seminary provides ministerial training to pastors and other church leaders from different denominations and from across the country. Like many other parts of Africa, a large number of Tanzania pastors have not had formal ministerial training. Our programs are at certificate level, diploma level, and undergraduate level.

Eric & Kathy Gundy | International Teams Erseke, Albania

Eric is The Program Director for the summer camps here. He is responsible for activities and staff. About 1,500 campers have attended camp from all over Albania during a previous summer. Eric is also the Principal of the Bible School. This is a 6 month international Bible school with half the students being Albanian and half from North America, Europe and even New Zealand. He invites the teachers, grades the student projects, prepares the schedules as well as handles any other student problems that may arise. Eric is also on the leadership team of the church which includes preaching on occasion. Kathy organizes the finances of the foundations, helps with the kids at risk in the after school tutoring, and helps with clothes distribution.

**Ljilijana Banicek | Evangelical Union of Students (EUS)
Banja Luka, Sarajevo, and Tuzla: Bosnia-Herzegovina**

Our ministry is to be the outstretched arm of the local church for the college student population. We believe that college students are a strategic group of people that will one day have tremendous influence on Bosnia-Herzegovina as a whole! Our vision is that our long-term impact will be Christ-following, with EUS alumni firmly rooted in their local churches leading our beloved country into prosperity and shalom!

Our mission is then to invest in evangelism and discipleship of college students in our respective cities. Since we live in such an unreached country in terms of Christian students, most of our effort is concentrated on sharing the Gospel with students that have not yet encountered Jesus. We meet these students through free language courses—whether we offer German, English, Spanish, French, or Russian-- we use this service as a way to get to know students.

As we build relationships, we invite them to different events where they can hear about God. Our monthly dinners are an example of this. In our monthly dinners, we provide space for connecting relationally and we also have a short talk from the Bible, as well as a small group discussion about the Bible passage. Other activities with students include, coffee times over which we share the Gospel, seminars/workshops, camps, etc. Through these events, we filter to see which students are open to spiritual conversations and reading the Bible with us. We meet with these students, invest in their lives and share Jesus with them through friendship.

Aron & Cessie Rice | Pioneers, USA
Amazon Jungle, Pucallpa, Peru

Our mission is to reach the remaining 35 unreached people groups of the Peruvian Amazon. We accomplish this by recruiting, training, and launching new missionaries to the field. Aron's primary role is as a trainer and mobilizer, but he also is putting his pastoral counseling experience to work where needed. Cessie is a teacher at the missionary school; she teaches Jr High and High School English. She also helps to host new recruits and provides coaching for new female missionaries on our team. Living in the jungle has its challenges but we absolutely love it here! Pray that God will help us reach our goal of launching 10 new teams over the next 10 years.

Sarah Mac
Reach Across | Northern Africa

I show the love of Christ by working with local people to lead musical activities for disadvantaged youth, displaced by poverty and war, in various settings. I volunteer at a local shelter making deeper connections and friends while studying and practicing the local language. I have been immersing myself in the culture to expand my knowledge and understanding, so I may be used by God to do my part in the kingdom, all for His glory.
