

# PRAYING FOR OUR WORLD

One fun way to pray for the world as a family revolves around the World Cup! The global soccer tournament begins this week and presents a wonderful opportunity to pray. Simply put the names of every country in a hat and pull one out. Pray for that country throughout their run in the tournament (and maybe root for them while you're at it)! If they get knocked out, grab another country that's still playing and pray for them. Keep going until you get to the end of the tournament.

You can find a list of the countries here: [TEAMS](#). For more information about the country you chose, head over to [Operation World](#). This website features a ton of prayer resources, as well as a daily calendar to help you pray for different countries around the world. Each country's profile has a bunch of information to inform your prayers.

An additional option is to sign up for The Pour Over. This is a really helpful news source that provides information without a lot of partisan spin. Their newsletter is designed to help you pray through the headlines instead of giving in to anxiety about them. You can sign up for the newsletter here: [The Pour Over](#)
